SUMMARY OF INFORMATION

The target emphasizes the use of angles that reaches to the top. The target is a tower or a series of towers. (See conceptual sketches attached to this summary). Through the use of color codes, it was determined that the target object was built in about 1890. Attempts to name the object resulted in the phonetic indication of "Engels" (for Eiffel). Efforts to determine its location (Paris, France) were unsuccessful.

OpsCmts: First 30 percent of session provided accurate data. Accuracy decreased thereafter.
